Immersive Drone Video Teaser

IDR
15,000,000

One immersive project video teaser, approximately 30/45s long, designed for social media, investor presentations, website use, and sales communication.

- Standard drone shots
- FPV drone shots & top-down views
- Lifestyle shots
- Augmented renders
- Land and surroundings footage
- Clear graphic annotations
- Motion effects and visual transitions
- Integration of selected project renders or villa visuals

FPV drone footage will be captured using an immersive drone setup, creating dynamic movement through the land and surroundings for a stronger sense of scale, access, height, and location. Classic and FPV drone footage will be combined with top-down views, clear annotations, render integration, and light AI-assisted effects to present the land, project positioning, access, scale, surroundings, and overall project vision in a premium 1-minute video. The final teaser will be ready for social media, investor updates, advertising, private presentations, and project promotion.

Photo Content

IDR
8,000,000

Professional photos of the land, surroundings, access points, key viewpoints, drone perspectives, and project context.
Usable for brochures, social media, investor updates, website content, and sales presentations.
